### Introduction to Magento Zoho CRM Integration

**Magento Zoho CRM Integration** is a prehensive module that provides automatic data synchronizing solution from your Magento sites to Zoho CRM.

#### Features

1. The Module supports the following synchronizations:
  - Customer Accounts in Magento to Leads, Contacts and Accounts in Zoho.
  - Products in Magento to Products in Zoho.
  - Promotions in Magento to Campaigns in Zoho.
  - Orders in Magento to Sales Orders in Zoho
  - Invoices in Magento to Invoices in Zoho.
2. Admin can easily define field mappings to select what data to sync.
3. Admin can view the report to see the sync history between the two platforms.

For each request, you can only sync ferwer than 100 records (<100 records/request).

#### System Requirements

Your store should be running on Magento Community Edition version 1.8.x or 1.9.x.

#### Video Tutorial Playlist

( Go to the playlist to view more: <https://www.youtube.com/playlist?list=PL0gckfH7zIzslbCnBH6KVKseSsrJsnTh> )

---

## Configuration

First, you need to log into Magento's backend site. Click on **ZohoCRM Integration Configuration**.

#### Generating Zoho Auth token

- Method 1:
  - Using the URL format: [https://accounts.zoho.com/apiauthtoken/nb/create?SCOPE=ZohoCRM/crmapi&EMAIL\\_ID=Zoho CRM Username or Email ID&PASSWORD=Your Zoho CRM Password](https://accounts.zoho.com/apiauthtoken/nb/create?SCOPE=ZohoCRM/crmapi&EMAIL_ID=Zoho CRM Username or Email ID&PASSWORD=Your Zoho CRM Password)
  - The generated output looks like this:

```
#
#Tue Sep 29 00:02:22 PDT 2015
AUTHTOKEN=3bd97fcc26dae3da61c9884d5ec7b9e9
RESULT=TRUE
```

- Method 2:
  - Just leave the Auth token field blank, it will be automatically generated after you hit **Save Config**
  - However, it is important for you to clear active auth token after a while. If the number of active auth token goes above 10, the extension cannot function properly.
  - Click on your Profile picture at the top right corner, click on **My Account -> Preferences -> Sessions -> Active Authtokens**
  - Delete active authtokens

**Filling in necessary information**

- Fill in your email ID, password and auth token of Zoho.
- Choose fields that you want to sync and hit **Save Config**

# Data Integration Settings

- You can choose which data fields you want to sync from Magento to Zoho.

Click on **ZohoCRM Integration** tab -> **Field Mapping** to view available mappings

**Fields mapping management** [Add](#)

# Main Functions

## 1. When a new account is registered in Magento, Zoho will automatically add a new record of this account in Leads

- In Magento Register Page

### MY DASHBOARD

Thank you for registering with Main Website Store.

**Hello, Thao Pham!**

From your My Account Dashboard you have the ability to view a snapshot of your recent account activity and update your account information. Select a link below to view or edit information.

- In Zoho's Leads

Feeds Home **Leads** Accounts Contacts Potentials Campaigns Reports Dashboards Visits Activities Products ...

All Open Leads

Run Macro Send Mail Delete More Actions

<input type="checkbox"/>	Lead Name	Company	Phone	Email
<input type="checkbox"/>	Thao Pham			phamthao@gmail.com

2. When a customer updates his information, data in Leads and Contacts will also be updated automatically.

- After successfully editing information

## ADDRESS BOOK ADD NEW ADDRESS

 The address has been saved.

### DEFAULT ADDRESSES

**DEFAULT BILLING ADDRESS**

Thao Pham  
 95 Alley, Chua Boc Str.  
 Hanoi, 10000  
 Vietnam  
 T: 0912963192

[Change Billing Address](#)

### ADDITIONAL ADDRESS ENTRIES

You have no additional address entries in your address book.

- In Zoho's **Contacts**

Address Information Locate Map

Mailing Street:	95 Alley, Chua Boc Str.	Other Street:	
Mailing City:	Hanoi	Other City:	
Mailing State:		Other State:	
Mailing Zip:	10000	Other Zip:	
Mailing Country:	Vietnam	Other Country:	

3. When a customer adds items to cart then check out, Sales Orders in Zoho will be auto synced. Also, a record in Accounts of that customer will also be added if not exist.

- After successfully placed an order.

**YOUR ORDER HAS BEEN RECEIVED.**

**THANK YOU FOR YOUR PURCHASE!**

Your order # is: [10000012](#).

You will receive an order confirmation email with details of your order and a link to track its progress.

Click [here](#) to print a copy of your order confirmation.

[CONTINUE SHOPPING](#)

- In Zoho's **Sales Orders**

The screenshot shows the Zoho Sales Orders interface. At the top, there is a navigation bar with tabs for Feeds, Home, Leads, Accounts, Contacts, Potentials, Campaigns, Reports, Dashboards, Visits, Activities, Products, and Sales Orders. Below the navigation bar, there is a dropdown menu for 'All Sales Orders'. Below the dropdown, there are buttons for 'Delete' and 'More Actions'. The main content is a table with the following columns: Subject, Status, Grand Total, and Account Name. The table contains three rows of data:

Subject	Status	Grand Total	Account Name
<a href="#">10000012</a>	Created	\$104.95	<a href="mailto:phamthao@gmail.com">phamthao@gmail.com</a>
<a href="#">10000011</a>	Created	\$104.95	<a href="mailto:duongbkhn@gmail.com">duongbkhn@gmail.com</a>
<a href="#">10000008</a>	Created	\$104.95	<a href="mailto:qhauict13@gmail.com">qhauict13@gmail.com</a>

- In Zoho's **Accounts**

The screenshot shows the Zoho Accounts interface. At the top, there is a navigation bar with tabs for Feeds, Home, Leads, Accounts, Contacts, Potentials, Campaigns, Reports, Dashboards, Visits, Activities, and Products. Below the navigation bar, there is a dropdown menu for 'All Accounts'. Below the dropdown, there are buttons for 'New Account', 'Import Accounts', and 'Account Tools'. Below the buttons, there are buttons for 'Delete', 'More Actions', and a refresh icon. The main content is a table with the following columns: Account Name, Phone, and Website. The table contains three rows of data:

Account Name	Phone	Website
<a href="mailto:phamthao@gmail.com">phamthao@gmail.com</a>		
<a href="mailto:duongbkhn@gmail.com">duongbkhn@gmail.com</a>		
<a href="mailto:qhauict13@gmail.com">qhauict13@gmail.com</a>		

At the bottom right of the table, there is a pagination control showing '10 Records per page', 'Total Count', and '1 to 3'.

**4. When admin add a new product in Magento, Zoho will auto sync data about that product**

- After successfully Added **Mushroom Escape**

✓ The product has been saved.

**Manage Products** ➕ Add Product

Update

- When a bug fix or new feature is released, we will provide you with the module's new package. All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
  - Flush the config cache. Your store and newly installed module should be working as expected.
- 

## Support

- We will reply to support requests after **2 business days**.
  - We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
  - Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
- 

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support
