Introduction

You want to highlight your new arrival items, you desire to sell more on certain products by offering discount prices, or a particular holiday set needs to be outstanding on the ground. With this extension, you can easily place the tags such as *"new arrivals"*, *"bestseller"* or *"50% off"* on your products to get customer attention. You are able to decide which place to stick the labels so that it's visually suitable with the product image and layout. This extension allows you to design your all tags based on a variety of available options. At the back end, you can set rules and conditions for your product labels such as the start and end date or the duration for the promotion applied.

Features

- Create an unlimited number of label rules
- Define conditions to trigger a label rule
- Support multiple store views/ Specify a store where a label rule can be applied
- Select customers' groups that can view rule-based labels
- Set rule expiry time
- Prioritize label rules when many rules are applied for the same product (s).
- Separate catalog and product view labels setup
- Add your own images for catalog and product labels
- Take advantage of nine predefined label positions: top-left, top-center, top-right, mid-left, mid-center, mid-right, bottom-left, bottom-center, and bottom-right
- Support multiple labels on product pages
- Disable catalog and/or product labels when needed

System Requirements

Your store should be running on **Magento Community Edition 2.3.x, 2.4.x**

Configuration

Product Label Grid

To create labels please go to **Admin Panel > Catalog > Magenest Product Label > Product Label Manage**

+ Condition

Select the conditions for the label

- **Set Specific Active Time:** Set the label start and end time
- **Apply For Product:** You can choose from All, New, On Sale, or Best Seller

ID	Name	Description
1	All	Apply labels on all products that satisfy the condition you have set
2	New	Apply all products that satisfy the condition you have set and are new products (fill in the product's "Set Product as New From" field)
3	On Sale	Applies to products that satisfy the label requirements and that qualify as a product being on sale (products with special prices set in a specific product or creating discount rules for each category)
4	Best Seller	Apply to products that satisfy the conditions of the label and are the best seller

⚠ Note:

- For **New** label, you can only specify products with the start and end dates of the new products set.

To enable the New attribute option, go to **Catalog > Product > Edit/Add Product**.

On the **Product Detail Page**, set the start and end date for the new product

Set Product as New From [website] 01/20/2021 To 01/20/2021

- For **On Sale** label, you can only assign to products that have **Advanced Pricing** or are applied **Catalog Price Rule**.

To set up Advanced Pricing, go to **Catalog > Product > Edit/Add Product**.

On the **Product Detail Page**, select **Advanced Pricing** and enter the discounted price accordingly.

Or you can create discount rules in **Marketing > Catalog Price Rule** to display **On Sale** label.

+ Category Page View

- **Display:** enable/disable displaying labels
- **Label Type:** You can choose **Text Only**, **Shape**, or **Image**
- **Shape Color:** Color Selection for Shape
- **Label size:** Customize label size for Shape or Image (50px-150px). Default: 80px
- **Label Position:** Set the position of the label (there are 9 default positions)
- **Text:** Enter custom text for the label (If it's a label sale, allowed text: "sale {{percent}} off, or: - {{amount}}").
- **Text Color:** Customize the text color
- **Text Size:** Customize the text size

⚠ **NOTE:** Text, Text Color, Text Size fields will be hidden if you choose the **Label Type** as **Image**.

★ Select **Shape**, you will see the option below

+ Product Page View

In the same rule, you can use a different label, or hide the label in the product view.

- Same as **Category Page**: **Yes** - the label on the **Product Page** will be the same as on the **Category** and **Search Page**.
No - to add a different label for the product view.
- If you want to customize the display of a separate label for product viewing pages, please do the same configuration as in the **Category Page View**.
