### Introduction

**Hipay Payment extension for Magento 2 by Magenest** is a global provider of payment processing service, with operations in more than 150 countries worldwide. The company supports over 220 methods of payment across multiple channel, from online to mobile and brick-and-mortar. All platforms are integrated to give customers a seamless shopping experience. Hipay is the only payment company that offers customized payment solutions for each country. With many advanced functions such as 360-degree Customer View, Optimized Conversion and Comprehensive Fraud Protection.

### Highlight Features

- A lot of features is included in the extension that you can tweak to make it best suit your business, including:
  - Choose between Authorize Only or Authorize and Capture.
  - New order status.
  - Email customer.
  - Allowed credit card types.
  - Enable CVC verification.
  - Allowed country.
  - Order total threshold.
- Easily manage orders
- Easily capture, cancel and refund payments.

### System Requirements

Your store should be running on Magento 2 Community Edition version 2.1.x.

## Configuration

### Set up from Hipay home page

When having Hipay account, you will register a new website and take API Webservice Login and API Webservice Password. This API provides integrators and developers the means to use web services that communicate between Hipay home page and the Magento system.

After registering website successfully, you click **Merchant Tool Kit/API** on the Dashboard menu. The result is displayed in a below table:

Advantages

### Webservices

Webservices can be useful to implement the merchant tool kit or automatize many features on your website.

- ✓ **Product category :** [English version documentation](#)  
Product categories available for the merchant tool kit.  
(enter secondary domain of activity or site registered on HiPay wallet)
- ✓ **Languages, countries and timezones. :** [English version documentation](#)  
Languages, countries and timezones available for the merchant tool kit.
- ✓ **Capture a transaction :** [English version documentation](#)  
Cancellation or confirmation of transaction capture related to a payment managed with manual capture.
- ✓ **Refund a transaction :** [English version documentation](#)  
Reimburse a transaction on card (total)or HiPay wallet account (partial/total).
- ✓ **Make a transfer :** [English version documentation](#)  
Send a direct simple external transfer (non deferred of regular transfer)
- ✓ **Create a transaction :** [English version documentation](#)

### Webservice access

Login e8e74e15f674d5d176e6b292d8e406ee

Password b9ee66cc33f5f34ae746f194a048a9ec

You receive Login and Password to config in backend of Magento 2

## Set up The Integration On Magento 2

First of all, go to **Backend of Magento 2 stores-> Configuration->Sales->Payment Methods**

NOTE:

All of the payment's process operate in Hipay's payment site, not in Magento.

## Update

- When a new update is available, we will provide you with a new package containing our updated extension.
  - You will have to delete the module directory and repeat the installing steps above.
  - Flush the config cache. Your store and newly installed module should be working as expected.
- 

## Support

- We will reply to support requests after **2 business days**.
  - We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
  - Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
- 

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
