Introduction

Magento 2 Membership Program developed by Magenest is a powerful tool which brings many benefits for both the owner store and customers.

On the one hand, it is true that membership program is extremely valuable for the business. Nowadays, many business such as health clubs or gym center use membership programs. They consider it as one of the important strategy business because membership programs actually bring a stable source of income and high profits for their business. On the other hand, those also give customers a variety of choices so that they can easily choose a suitable membership type. Therefore, they can save a significant money through the promotion policies given by the providers.

Features for admins

- Create and manage membership rules.
- Set rule name and discount condition for customers
- Create and manage membership plans.
- Manage member in the same membership plan.
- Manage membership purchase history.
- Set to upgrade price determined.

Features for customers

- Manage their membership.
- Membership upgrading an easy way.
- Providing friendly user interface.
- Save significant money when customers use the membership programs.

System Requirements

Your store should be running on Magento version 2.0.1 and more.

Configuration

To set configuration, navigate to **Stores > Configuration > Magenest Membership**, consist of: **Plan Configuration**.

Plan Update Options:

At this tab, admin will set how to upgrade a membership when customers wish to improve their current membership. This option will calculate the remaining value of the current plan and subtract it from the price of the new plan.

General

Is Enabled: Enable or disable the membership extension

Plan Upgrade Options

Upgrade Price Determined:

By rate subtraction (for limited plan)

This option will calculate the remaining value of the current plan and subtract it from the price of the new plan.

For example, plan A last for 10 days and is priced at \$100, and plan A+ is priced at \$200. Mr. B been using plan A for 7 days and he upgrades his membership to plan A+. The remaining value from plan A is:

$$100 / 10 * 3 = \$30$$

The price for upgrading will be:

$$200 - 30 = \$170$$

New plan price "minus" discount fixed amount (value1)

The plan for upgrading will equal to the new plan price minus a specific value set by the manager.

New plan price have discount percent (value1)

Members get a specific discount amount on the new plan's original price. The percentage value is determined by the manager.

By new plan price "minus" old plan price:

The upgrading price equals to the new plan price minus the old plan price.

General

Is Enabled Yes

Plan Upgrade Options

Upgrade Price Determined

Not change

This option determines upgrading plan's price behavior

Value1 200

Apply the Rate Subtraction for Permanent Plan

No

This option only working with option "rate subtraction" at "Price Determined"

If Plan A price 100\$ upgrade to Plan B price 150\$. The upgrade price is $150 - 100 = 50\$$

Not change: Customer will simply have to pay for new plan's price upon upgrading

By rate subtraction: Customer's remaining membership value will be subtracted from the new membership price

New plan price "minus" fixed amount: The customer's new membership price will be discounted with a fixed amount

New plan price have discount percent: The customer's new membership price will be discounted with a percentage

By new plan price "minus" old plan price: The customer just have to pay for the difference between his old and new membership price

Benefit List: information filled in this box will be displayed as benefits of the benefit plan on the front-end.

Discount Condition:

The screenshot shows the 'New Membership Plan' configuration page. The left sidebar contains navigation links: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, MAGENEST MEMBERSHIP, STORES, and SYSTEM. The main content area is titled 'New Membership Plan' and includes a search bar, a notification bell, and a user profile dropdown. Below the title is a breadcrumb trail: ← Back, Reset, Save and Continue Edit, and a 'Save Plan' button. The 'MEMBERSHIP PLAN CONFIGURATION' section is active, showing options for General Information, Discount Condition (highlighted with a red box), Corresponding Product Config, Member Management, and Related Plans. The 'Discount Condition and Actions' section is expanded, showing the following settings:

- Enabled: Active
- Discount Condition: Apply for All (No Rule implies the plan's member WILL NOT get any product discount after purchasing this plan)
- Apply: Apply as percentage of original
- Discount Amount: 30
- Discard subsequent rule: Yes

This function also uses the membership rule in the previous section to apply discount to the a certain product group. Members of the current plan will enjoy discount when buying products from that meets this condition.

Enabled: Turn the discount rule on or off.

Discount Condition: Choose a membership rule that you have created in the membership rule section. This will apply the discount to a certain product group.

Apply: Choose to discount products by a percentage or by a fixed amount.
