Introduction

Hot Features

- Create a standard to freeship
- Set price or quantity productstofreeship.

System Requirements

Your store should be running on Magento 2 Edition version 2.1.x.

Configuration

Set configuration

Admins need to set configuration by clicking on **Stores > Configuration > Magenest > Shipping Bar** for first use

A screenshot of the Magento 2 Configuration page for the Shipping Bar extension. The left sidebar shows the navigation menu with 'Shipping Bar' highlighted. The main content area is titled 'Configuration' and shows the 'Free Shipping Bar' configuration. The 'General' tab is active, showing settings for 'Where to Display' (Pages: All Pages, Display Type: Down, Delay: 2 seconds) and 'Content' (Content when cart is empty, Content when cart is not empty, Content when goal is reached). The 'Free Shipping Bar' option in the left sidebar is highlighted with a red box.

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the configure cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
