## Introduction

**Alpha Fintech Payment extension for Magento by Magenest** is a graceful payment gateway which provides merchants and banks with a single integration to multiple payment products, fraud products and value added eCommerce services such as sales tax management.

This could be considered a technology solution although we like to consider it as something that reduces complexity in the payments world. APC does provide its own payment gateway service so we also act as a Payment Provider supporting merchants with traditional card processing and some alternative payment methods. You should install it now to use the best features like.

**Extension's page: [Alpha Fintech Payment Gateway.](#)**

## Features For Admins

- A lot of features is included in the extension that you can tweak to make it best suit your business, including:
  - Support credit card payment and direct debit in USA, Australia and New Zealand.
    - Enter API username and password
    - Allowed credit card types.
    - Support Authorize and Capture method only.
    - View order status transaction.
  - Allowed country.
  - Order total threshold.
  - Enable CVC verification.

## Features For Customers

- The primary aim of the extension is to deliver the most fluent and effortless payment experience to the customers:
  - Easily checkout using credit card.
  - Easy access to online transaction reporting

## System Requirements

Your store should be running on Magento Community Edition version 1.9.x.

## Configuration

### Set up Alpha account.

Firstly, you need to have an Alpha account to use our extension. If you don't have any Alpha accounts, you can Create an account by clicking on the following sandbox test links: and choose **Sign up**.

Next, you enter some personal information which helps **Alpha Payments** can identify you and set up your online login details included: username and password..... The system will also request you to enter an email address to receive direct notification but don't log in regularly.

Then, you confirm your account by agreeing **Alpha** online Terms& Conditions and click on **Sign up** button.

You log in by registered account:

Alpha Commerce Hub Log In

## Set Configuration

At the backend, admin needs to configure some fields to connect between your magento site and the Alpha Commerce Hub account.

**For Hosted Payment:**

**Systems > Configuration > Sales > Payment Methods > Alpha Payments**

Alpha Payments		
Enabled	<input type="text" value="Yes"/>	[GLOBAL]
Title	<input type="text" value="Alpha Payments"/>	[GLOBAL]
Mode	<input type="text" value="Test"/>	[GLOBAL]
User ID	<input type="text" value="*****"/>	[GLOBAL]
Merchant ID	<input type="text" value="SYDECOM001"/>	[GLOBAL]
Url	<input type="text" value="https://hubuat.alphacommercehub.com.au"/>	[GLOBAL]
API Endpoint	<input type="text" value="https://hubapiuat.alphacommercehub.com.au"/>	[GLOBAL]
API Key	<input type="text" value="9721c7ac-2073-4975-9033-7dc7c4ac656a"/>	[GLOBAL]
Payment Action	<input type="text" value="Authorize Only"/>	[GLOBAL]
Accepted Currency	<input type="text" value="Australian Dollar"/>	[GLOBAL]
Method	<input type="text" value="Credit Card"/> <input type="text" value="Pay Pal"/> <input type="text" value="Poli"/>	[GLOBAL]
3D Secure	<input type="text" value="Yes"/>	[GLOBAL]
Sort Order	<input type="text"/>	[GLOBAL]

For Direct Payment:

Systems > Configuration > Sales > Payment Methods > Alpha Payments Direct

Alpha Payments Direct		
Enabled	Yes ▼	[GLOBAL]
Title	Alpha Payments Direct	[GLOBAL]
Mode	Test ▼	[GLOBAL]
User ID	*****	[GLOBAL]
Merchant ID	SYDECOM001	[GLOBAL]
API Endpoint	https://hubapiuat.alphacommercehub.com.au	[GLOBAL]
Pay By Token	Yes ▼	[GLOBAL]
Payment Action	Authorize Only ▼	[GLOBAL]

**Access to online transaction reporting:**  
**By clicking Transactions, customer can find history according to Payment action: Capture, Cancel, Refund or Customize Search.**

The screenshot shows the AlphaCommerceHub interface for the 'Transactions' section. The left sidebar contains navigation options: DASHBOARD, PRODUCT LIBRARY, VIRTUAL TERMINAL, REPORTS, DESKTOP, TRANSACTIONS (selected), Search, Capture, Cancel, Refund, BILLING, SUPPORT, and ADMINISTRATION. The main content area is titled 'Search - Transactions' and includes search filters for date range (04/12/2017 - 04/12/2017), M-Txn-ID, Transaction Type, Response Code, Currency, Amount, and Payment Method. Below the filters is an 'Advanced' section with 'Split By' (Payment Method), 'Show FX' (checked), and 'Select Columns'. A table displays two transactions:

Date	Txn-ID	Provider Transaction Number	Transaction Type	Product	Response Code	Amount	Currency	Account Holder	BIN	Is Installment	Card BIN Pay Points
04/12/2017 9:03 AM	APC100000044		OnlinePayment	PayPal	1000	\$105.00	AUD				
04/12/2017 9:08 AM	APC100000045		OnlinePayment	Poll	1000	\$105.00	AUD				

Showing 1 to 2 of 2 entries. Page 1 of 1.

## Update

- When a new update is available, we will provide you with a new package containing our updated extension.
- You will have to delete the module directory and repeat the installing steps above.

- Flush the config cache. Your store and newly installed module should be working as expected.
- 

## Support

- We will reply to support requests after **2 business days**.
  - We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
  - Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
- 

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
