Introduction

Custom Stock Status extension is developed to enhance your Magento 2 stock management experience and give you great possibility to earn more money by delivering unlimited impressive stock statuses.

In detail, the extension highlights the stock availability with images or custom text to get noticed by the customers. It makes the customers to know the availability of stock and order soon. It also shows the customer how fast the product is getting sold out.

This tool will definitely enhance your Magento 2 stock management experience.

Features

- Allow to create multi Custom Stock Status
- Apply Custom Stock Status for each product
- Apply Quantity Rules to the Custom Stock Status for each product based on the quantity of that item in stock
- Allow to display a special icon for each Custom Stock Status
- Allow to display the number of product left

System Requirements

Your store should be runned on Magento Community Edition version 2.0.0 and more.

Configuration

After the extension is installed successfully, admins need to make some configurations before using the Custom Stock Status extension.

Login to backend magento 2:

Click in path: Store > Configuration > Magenest > Custom Stock Status or click on menu item "Custom Stock Status > Config Custom Stock Status":

[blocked URL](#)

Add Options to Custom Stock Status

Go to backend, click in path: Stores -> Attributes -> Product, filter custom_stock_status

[blocked URL](#)

Create options to Custom Stock Status

Attribute Properties

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the configure cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
