

Woocommerce Xero Integration

Thank you for purchasing our extension. If you have any questions that are beyond the scope of this document, do not hesitate to leave us an email via our email address below.

Created: 16/08/2017 | By: Magenest | Support Portal: <http://servicedesk.izysync.com/servicedesk/customer/portal/127>

Introduction

Introduction of Woocommerce Xero Integration

Woocommerce Xero Integration is a great tool which allows you to synchronize accounting data automatically from Wordpress store to Xero Website.

The main features

1. Sync customers from Woocommerce to Xero in **automatic or manual mode**.
2. Sync products from Woocommerce to Xero in **automatic or manual mode**.
3. Sync orders from Woocommerce store to Xero in **automatic or manual mode**.
4. Sync invoices from Woocommerce store to Xero in **automatic or manual mode**.
5. Report data sync from Woocommerce to Xero.
6. On/Off sync customer/product/invoice from Woocommerce store to Xero.

Configuration

1. You need private key and public key: Visit this link and follow the instructions - [Create a public/private key pair](#)

```
magenest4@magenest4-All-Series: ~
magenest4@magenest4-All-Series:~$ openssl genrsa -out privatekey.pem 1024
Generating RSA private key, 1024 bit long modulus
.....+++++
.....+++++
e is 65537 (0x010001)
magenest4@magenest4-All-Series:~$ openssl req -new -x509 -key privatekey.pem -out publickey.cer -days 1825
You are about to be asked to enter information that will be incorporated
into your certificate request.
What you are about to enter is what is called a Distinguished Name or a DN.
There are quite a few fields but you can leave some blank
For some fields there will be a default value,
If you enter '.', the field will be left blank.
-----
Country Name (2 letter code) [AU]:
State or Province Name (full name) [Some-State]:
Locality Name (eg, city) []:
Organization Name (eg, company) [Internet Widgits Pty Ltd]:
Organizational Unit Name (eg, section) []:
Common Name (e.g. server FQDN or YOUR name) []:
Email Address []:
magenest4@magenest4-All-Series:~$ openssl pkcs12 -export -out public_privatekey.pfx -inkey privatekey.pem -in publickey.cer
Enter Export Password:
```

- Step 1: openssl genrsa -out privatekey.pem 1024

- Step 2: openssl req -new -x509 -key privatekey.pem -out publickey.cer -days 1825
- Step 3: openssl pkcs12 -export -out public_privatekey.pfx -inkey privatekey.pem -in publickey.cer

NOTE: When you creates a public key and private key, press "Enter" and do not enter a password or any information during key generation.

After completing, you receive 3 files:

privatekey.pem

publickey.cer

public_privatekey.
pfx

Use ftp to upload files to the folder following the directory:

woocommerce-xero-integration -> controllers -> certs

2. Create private application in app.xero.com

Add new App

Public app

Any organisation can
connect to this app

Private app

Only your organisation can
connect to this app

App name

test_plugin_magenest

Organisation

magenest

Public Key

Upload Certificate File

Paste from Clipboard

Upload your [base-64 encoded X509 certificate](#) (.cer or .crt) file below.

Public Key

publickey.cer

I have read and agree to the [Xero Developer Platform Terms & Conditions](#)

Create App

- Choose: Private - just for use with my own organisation
- Fill in name of application in the field: Application Name
- Select which organisation your application can access
- Public Key:
- + Choose: Upload certificate file (.cer)
- + Upload the file publickey.cer has just initialized
- + Click the checkbox: I have read and agree to the Xero Developer Platform.
- Click button Create App.

You receive:

1. Consumer Key
2. Consumer Secret

App Details

Private

App name

Organisation this app can access

App Credentials

The customer account is stored in Table Sync Xero

The screenshot shows the WordPress admin dashboard with the 'Table Sync Xero' plugin interface. The left sidebar contains the standard WordPress menu, with 'Xero' highlighted under the 'Tools' section. The main content area shows a table titled 'Contact Table Sync Xero' with the following data:

ID	User Id	Name	Email	Date create	Sync
2	14	keysnt	keysnt@gmail.com	2017-08-14 15:56:07	SYNC

At the bottom of the interface, there is a message: 'Thank you for creating with WordPress.' and a version indicator: 'Get Version 4.8.1'.

Admin clicks button SYNC to transfer this information to Xero:
