Introduction

Couture Fashion Theme is a Magento 2 theme with a very elegant and minimalist design. It is designed specially for clothing, fashion, shoes, handbags, watches, accessories shop. This theme is easy to customize and ready to use. With this theme, you can install and set up the theme with ease.

Requirements

Your store should be running on Magento Community Edition version 2.2.x, 2.3.x and Magento Enterprise Edition version 2.2.x, 2.3.x.

Configuration

Enable the theme

 To enable the Couture Fashion theme, on the Admin sidebar, go to **Content > Schedule > Add Design Change > General Settings**.

- **Store:** select your store to change the theme.

- **Custom Design:** select Magenest Couture Fashion theme.
- **Date From/To:** The time duration for an available theme.
- Click on **Save** button to save the configuration.

➕ After saving, clear the cache of Magento, go to **System > Cache Management > Flush Magento Cache**.

Update

- When a bug fix or new feature is released, we will provide you with the product's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- Magenest offers the response time can be up to **3-5 days**.
- We offers **lifetime support free for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products work well in your site exactly like our demo.
- Support **DOES NOT** include other services as customize our product to fit your own needs, installation service, uninstallation service. We **ONLY** support you with exist features of product.
- We're not able to support third party plugins or ensure that every one works properly with our themes

License

- All our themes are licensed under the OSL License. You have the right to use each purchased theme on one domain only. You are authorized to make any necessary modifications to themes to suit your needs.
- Each theme comes bundled with **plugins** that are not licensed under the theme but have **their own license**. These plugins have been purchased for the use in the individual themes they are bundled with only.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
