Introduction

Facebook is no stranger to anyone. With almost 1.5 billion daily active users, Facebook is now the biggest social network worldwide, it's a social media channel that dominates others by audience reach and engagement. Responding to the in-time demands of the merchants, Magenest provides you with the Facebook Messenger integration extension. With this, you can now handle messages from your Facebook opportunities and sales customers in your Magento store directly. Magento 2 Facebook Messenger keeps you responsive to Facebook clients. In addition, merchants can also receive information that is supported by Facebook (including customers' names, locations, birthday, emails, age,...), and therefore, can better understand your customer groups.

Features

- Receive messages from customers on Facebook
- Response messages directly using Facebook Messenger
- Collect customer data including name, location, email, age, etc.
- Summarize data to see trends & insight

System Requirements

Your store should be running on Magento Community Edition version 2.1.x.

Configuration

In order to get your extension up and running properly, we highly recommend that you make the configuration correctly from the beginning.

Fanpage Live Support

To configure the **Fanpage Live Support**, on the Admin sidebar, go to **Marketing > Messenger Live Support > Fanpage Live Support Settings**.

 On the **Fanpage Live Support Settings** page

The screenshot shows the 'Configuration' page in Magento 2. On the left is a sidebar with navigation links: DASHBOARD, MARKETING, STORES, and SYSTEM. The main content area is titled 'Configuration' and has a 'Store View: Default Config' dropdown and a 'Save Config' button. A left-hand menu shows categories: GENERAL, MESSENGER LIVE SUPPORT, SECURITY, SALES, and ENGAGEMENT CLOUD. The 'MESSENGER LIVE SUPPORT' category is expanded, showing 'Fanpage Support Configuration' and 'Messenger Live Chat Configuration'. The 'Fanpage Support Configuration' section is active, displaying 'Fanpage Live Support Settings'. The settings include: 'Enable Fanpage Live Support' (set to 'No'), 'Use Small Header' (set to 'Yes'), 'Show Cover Photo' (set to 'Yes'), 'Show Friend's Faces' (set to 'Yes'), 'Facebook Page Link' (set to 'https://www.facebook.com/Fanpage-Trang-1103392333197446/'), 'Facebook App ID' (set to '405192806873046'), and 'Tabs to render on frontend' (a dropdown menu showing 'Timeline', 'Events', and 'Messages').

- **Enable Fanpage Live Support:** Select **Yes** to enable live support on the storefront.
- **Use Small Header:** Select **Yes** to use the small version of the page header.
- **Show Cover Photo:** Select **Yes** to include the cover photo of the admin in the header.
- **Show Friend's Face:** Select **Yes** to display customers' friends profile pictures when they like a post on the timeline.
- **Facebook Page Link:** Input your Facebook page's URL.
- **Facebook App ID:** Input your Facebook App ID. To get the App ID, please navigate to this [Link](#) and create an app.

The screenshot shows the 'facebook for developers' 'My Apps' page. It features a search bar, a 'Add a New App' button, and a list of existing apps. Two apps are visible: 'test api' (App ID: 471, Status: In development, Owned By: Rasamee) and 'Integration' (App ID: 42, Status: In development, Owned By: Marketing Magenest). Each app card shows a 'Facebook Login' and 'Analytics' status with green checkmarks, and a 'Finish Setup' link for the 'Integration' app.

- **Tabs to render on frontend:** Select the tabs you want to display in the Facebook box.
Timeline: Fanpage's timeline.
Events: Fanpage's events.
Messages: Live chatbox. All the replies from the admin in this chatbox will be available in Messenger.

+ Admin can also customize the extension's display on the storefront.

Customize the extension

 - Science, Technology & Engineering

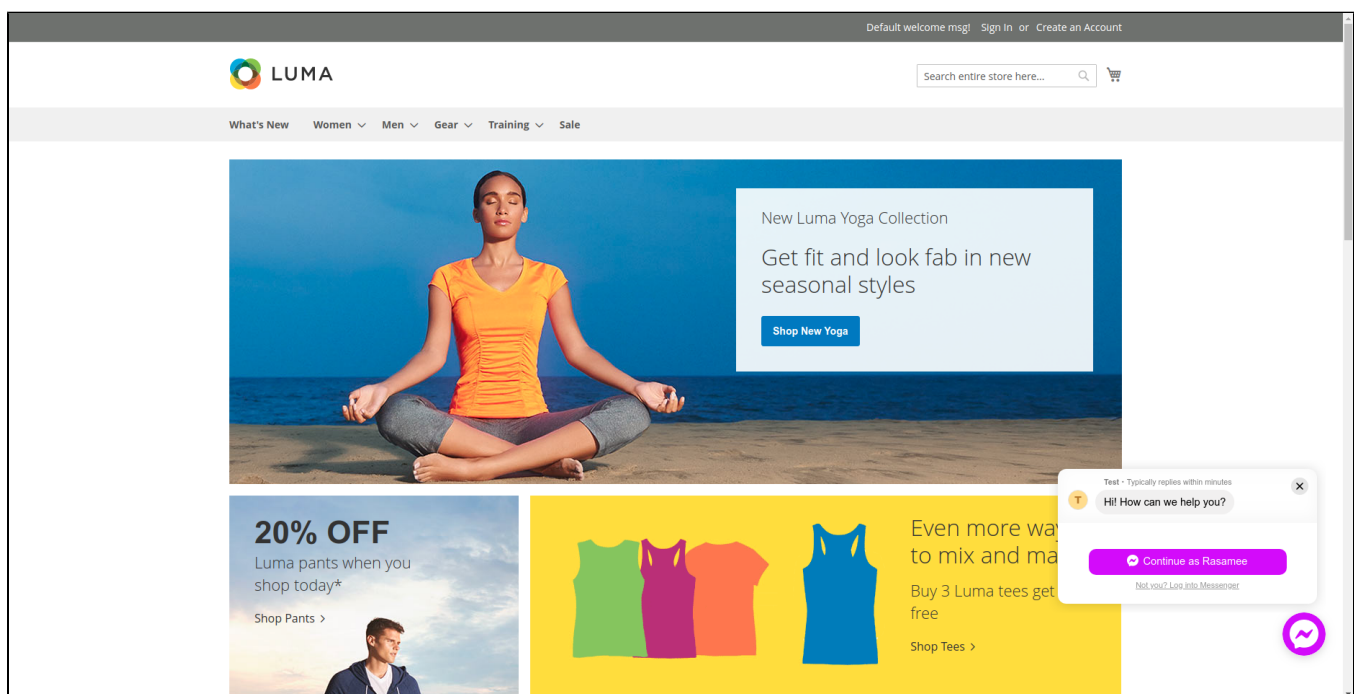

Storefront Display

After finishing the configuration, customers will be able to see the extension displayed on the frontend. This will help facilitate the sales process and make your website look more professional.

- Fanpage Live Support box display

- Messenger Live Chat box display

Report

One great thing about our module is that it can collect the customers' data that is supported by Facebook (including customers' names, locations, birthday, emails, age,...) and with this, merchants will be able to have a good analyse on their customer flow.

- Merchants can see the customers' ages and locations rate in the chart

- Merchants can gather customers' data and therefore better their upmarket and customer service experience.

Manage User Data

* Prerequisite: [Setting up the submission of facebook app to getting the user data](#)
