Submit

Click **Add button** on the week of day column you want to add new schedule. Select **From Time** and **To time**, then click **Submit**. If the system displays "The working time is saved" that means your submission is done.

The Abnormal Working Schedule

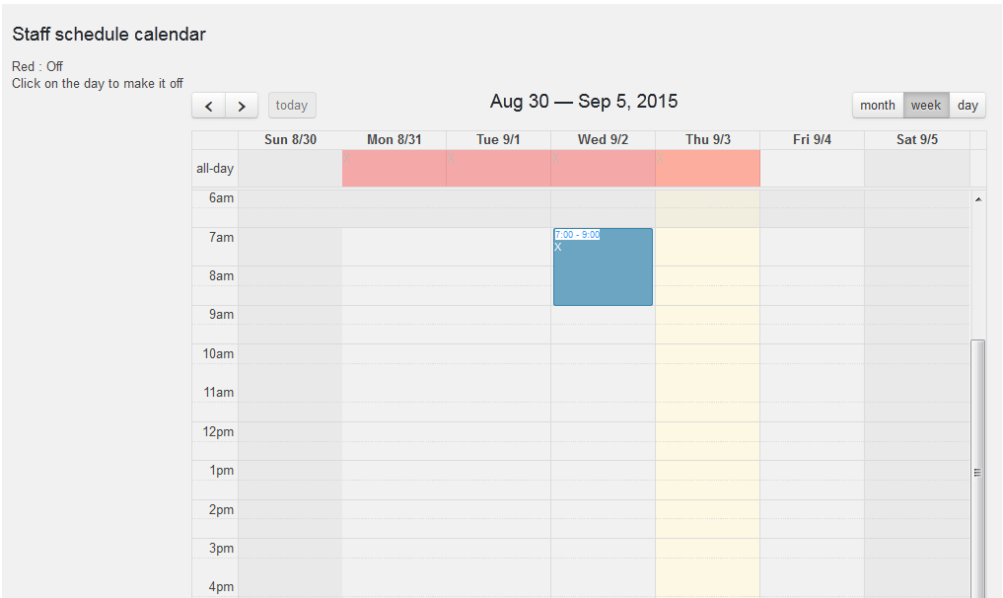

The non-working days and holidays can be specified not only for the whole company, but for each staff member as well. While creating a staff member account, the information about holidays is taken from the one indicated for the whole company. However, it can be changed later to comply with the staff member schedule. Timeslots for booking are based on the staff member schedule.

Navigate to the Staff tab on the Dashboard, select a person in staff management table, click on the **working calendar** line in schedule column or you can click on **The abnormal working schedule** line in staff detail page.

The calendar can be displayed in three modes: by months, by weeks and by days. To switch between the appearance modes, click on the appropriate button at the top of the calendar page.

Click on the day in the calendar to make it off.

You can add staff's working time in weekly view and day view calendar by click the mouse at a time point, this is considered as the start time, then pull down to a time point that is considered to the end time.
